Letter 7

ELTons award nomination

Dear colleague,

We are pleased and proud to inform you that the voluntary campaign Disabled Access Friendly has been given two significant votes of confidence.

The campaign has been nominated for a British Council ELTons award in the field of "Innovation in Teacher Resources". The ELTons, sponsored by Cambridge English, are the only international awards that recognise and celebrate innovation in the field of English language teaching. The award ceremony will be held in London on 22nd May 2014.

Disabled Access Friendly's free teaching resources have been approved by the Institute of Educational Policy of the Hellenic Ministry of Education and Religion for use in state primary and secondary schools in Greece.

Disabled Access Friendly would not have been able to grow and achieve such recognition if it weren't for the voluntary efforts and invaluable support of numerous kind-hearted and committed people. We would like to take this opportunity to thank everyone who believes in what we are doing and helps to promote and support this campaign, as well as the teachers from over 100 countries around the world who use our material in class.

With best wishes,

the Disabled Access Friendly team
